Dear Ferrari Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ferrari S.p.A., the manufacturer of Ferrari automobiles, has determined that a defect, which relates to motor vehicle safety exists in certain 1987 through 1995 model year Ferrari vehicles.

On certain Ferrari vehicles, the Passive Restraint System may not function correctly. The vehicles possibly affected are as follows:

- Model year 1987 through 1992 Testarossa, with Vehicle Identification Numbers from ZFFSG17A5H0067487 to ZFFLG40A2N0092147, which have a Vehicle Assembly Number from 0001 to 9332.
- Model year 1991 through 1995, 512TR, with Vehicle Identification Numbers from ZFFLG40AXM0087440 to ZFFVG40A2S0100154, which have a Vehicle Assembly Number from 0001 to 17474.
- Model year 1995, 512M, with Vehicle Identification Numbers from ZFFVG40A9S0100202 to ZFFVG40A1S0104065, which have a Vehicle Assembly Number from 17498 to 21123.

We have experienced inconsistent electrical operation of the automatic track assembly on the Passive Restraint System fitted in these models. Over the years we have also had the need to change vendors several times. As a result, the replacement parts have become difficult to obtain and some parts may not be interchangeable due to varying suppliers.

If the Passive Restraint System experiences an electrical or mechanical failure, and the Passive part of the Restraint System was not engaged, the lap belt would be the only protection in the event of an accident, and the occupants may not be fully protected. In the event of such an electrical or mechanical failure, the occupants can still manually lock and secure the system therefore the integrity of the system would not be compromised in the event of a crash.

The remedy consists of replacing all the main components of the Passive Seat Belt System. This includes the electronic control units, the retractor mechanism, and both the right and left motor driven track assemblies.

Since your car is among those affected by the above condition, we kindly ask you to immediately contact any Authorized Ferrari Dealer in order to arrange an inspection of your automobile and to have the corrective action performed.

The corrective action for the above listed repair will be performed free of charge to you and will require up to approximately 6.5 hours to complete. Please plan, however, to leave your vehicle with the dealership to allow the dealer some flexibility for scheduling your repairs.

Prior to obtaining the free repair for this condition, in the event of an electrical or mechanical failure of the Passive Restraint System, you should **manually lock and secure the system** pursuant to the instructions in the Owners Manual.

By the time you receive this letter, the Authorized Ferrari Dealers will have been supplied with the parts and the instructions to perform the repair. If the Dealer fails or is unable to make the necessary repairs free of charge within a reasonable time, or if you have any problem obtaining the needed repair, you should inform the National Headquarters of Ferrari North America, Inc. at:

Ferrari North America, Inc.
250 Sylvan Avenue
Englewood Cliffs, NJ 07632
(201) 816-2651 (National Technical Office)

If the affected vehicle is not repaired free of charge to you and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, (NHTSA), 400 Seventh Street, SW, Washington, DC 20590. You may also telephone the toll free Auto Safety Hotline at 888-327-4236. (Washington, D.C. area residents may call 202-366-0123).

You may be eligible to receive reimbursement for the cost you incurred if you already have obtained a remedy for a problem associated with the defect described in this letter. However, you still must have this corrective action performed, regardless of any previous repairs that may have been performed. Information about the reimbursement program for pre-notification repairs is provided in the enclosure to this letter.

If you no longer own this vehicle or your address has changed, please complete the enclosed prepaid yellow card and return it to Ferrari North America, Inc.

We urge you to comply with this notice promptly and we apologize for any inconvenience this may cause you.

Best Regards,

A handwritten signature in black ink, appearing to read "Enzo Francesconi", with a long horizontal flourish extending to the right.

Enzo Francesconi
Vice President of Technical Services

ENCLOSURE

Pre-Notification Reimbursement Program

You may be eligible for reimbursement if you previously incurred out-of-pocket costs for repairs or replacements of the passive restraint systems covered by this recall campaign.

1. This reimbursement program applies to the vehicles listed below and in the attached letter:

- Model year 1987 through 1992 Testarossa, with Vehicle Identification Numbers from ZFFSG17A5H0067487 to ZFFLG40A2N0092147, which have a Vehicle Assembly Number from 0001 to 9332.
- Model year 1991 through 1995, 512TR, with Vehicle Identification Numbers from ZFFLG40AXM0087440 to ZFFVG40A2S0100154, which have a Vehicle Assembly Number from 0001 to 17474.
- Model year 1995, 512M, with Vehicle Identification Numbers from ZFFVG40A9S0100202 to ZFFVG40A1S0104065, which have a Vehicle Assembly Number from 17498 to 21123.

2. This reimbursement program applies to repairs or replacements of the passive restraint system of a vehicle listed above.

3. This reimbursement program applies to repairs or replacements of all or part of the passive restraint system of a vehicle listed above if such repair or replacement was made at any time up to ten days following the mailing of the attached notification letter.

4. This reimbursement program does not apply to repairs or replacements that were made within the period during which the original warranty would have provided for a free repair of the problem addressed by this recall, unless (i) a franchised dealer or authorized representative of Ferrari denied warranty coverage or (ii) the repair made under the warranty did not remedy the problem. Reimbursement also will not be provided if the pre-notification remedy was not of the same type as the recall remedy provided herein, did not address the defect that led to this recall, or was not reasonably necessary to correct the defect.

5. To obtain reimbursement for pre-notification remedies, you will need to provide a receipt, which may be an original or copy, identifying the equipment replaced; and, if the pre-notification remedy was obtained at a time when the vehicle was covered under the original warranty program, documentation indicating that the manufacturer's dealer or authorized facility either refused to remedy the problem addressed by the recall under the warranty or that the warranty repair did not correct the problem addressed by the recall. In addition, you will need to submit a written and signed claim for reimbursement that contains the information required in paragraph 6, below.

6. The claim for reimbursement should include the following information. (a) the name and address of the claimant; (b) identification of their vehicle's make, model, model year, and vehicle identification number; (c) identification of the Ferrari Campaign number (Campaign No. 37) or identification of the recall by reference to NHTSA's recall number; and (d) identification of the owner or purchaser of the vehicle at the time that the pre-notification remedy was obtained.

7. If you have any questions about the reimbursement program or need help in making a claim for reimbursement, please write or call Ferrari North America, Inc., at the following address and telephone number:
