1965 Shelby Cobra 427 SC (Continuation)
CSX#4170

The Shelby Cobra is one of the most recognizable and desirable sports cars in the world. Starting in the late 1980s, Carroll Shelby, with the aid of many companies, built what are known as Continuation Series cars. These cars were all fully authorized by Shelby and built in approved facilities. New CSX4000-series vehicles were produced by Shelby and featured correct parts with the durability and safety of today's manufacturing standards. Each Continuation vehicle is authentic and documented by Shelby CSX number and a Manufacturer's Statement of Origin (MSO) from Shelby Automobiles.

Improvements included a stronger frame, suspension and braking components, better cooling and better heat shielding. This combination made the cars safer and more drivable without losing any of their original fire-breathing charm. With performance and quarter-mile times comparable to their earlier predecessors, the driver of this motorcar knows that they are piloting a true American legend. The 427 CI V-8 engine is a true brute, propelling the car to 60 MPH in roughly 4 seconds and running the quarter-mile in 12 seconds.

This 1965 Cobra 427 S/C is serial number CSX4170. This is a true "Continuation Series" aluminum body motorcar. This Shelby Cobra was ordered new from authorized Shelby Cobra dealer and builder "Midwest Motorsports" of Holland, Michigan on Feb 22, 2000. Imported from the selling dealer into Toronto, Canada on October 3, 2000, the motorcar would be sent to climate controlled storage to spend the winter before its first season on the road in the spring of 2001!

Powering this rare motorcar is the original "born-with" Shelby 427ci Aluminum Block and Aluminum Head engine producing 500+ horsepower paired to the original "born-with" Borg Warner 5-speed manual transmission. This Cobra features Shelby aluminum valve covers, Holly 750 cfm Carburetor, an aluminum Shelby radiator, stainless fuel and brake lines and much more to reduce weight and add speed.

Options selected for this motorcar are vast including: knock-off "Halibrand-style" wheels, Special performance tires, Required option-package "A" gray components package "B". Very rare factory side-oiler option!! Ceramic exhaust coating on side mounted pipes. Trunk mounted battery (gel type). Enhanced heat insulation. Engine rev-limiter. Fitted Tonneau cover. Full custom leather interior up-grade. Competition ventilated aluminum 4-piston "Willwood" brake calipers, 12 ½ inch ventilated rotors with custom hats, stainless steel braided brake lines (including hand brake).

A complete factory "aluminum body" up-grade ($27,000 USD) + "Hand-forming" of entire aluminur body up-grade ($44,000 USD). Heater/defroster, 427 c.i. aluminum engine up-grade ($13,50 USD) + ancillary hardware ($5,000 USD). 42-gallon fuel cell. Correct top-loader shifter. Fu documentation breakdown of all optional equipment and upgrades. Pictures during assembl process included.

Detailed appraisal at time of delivery, for $200,000 U.S. dollars (current exchange rate at the time $1.54 canadian dollar to USD therefore, appraisal $308,000 + tax canadian dollars).

Extensive, flowing documentation and servicing to proper standards accompanying this vehicle providing correct mileage records (invoices included). This paperwork and correct history records provide ultimate pedigree and provenance.

Performed at 15,705 miles on Sept 30th 2013, This motorcar was the recipient of service completed by Toronto marque specialist and service agent "Engineered Automotive". This maintenance included Complete Oil Service, Compression test, Replacement of Transmission fluid, and replacement of the Tachometer for a total of $1,786.66 (invoice included).

15,752 original miles since delivery new! This is the real deal!!! A true factory Cobra 427 SC CSX 4000 continuation series vehicle. Ownership registration reads 1965 Shelby CSX. The title is 1965 "vin" number bearing #4127. Incredibly rare…very desirable. 1-of-1 in Canada. The original "31" total production of the 1965 AC Cobra 427 SC today trade very aggressively. A proven extremely strong blue-chip investment vehicle.

These vehicles are highly sought after by collectors world-wide selling between $1,200,000 - $2,000,000 USD. This extremely rare and desirable, factory built, continuation series car bearing real 1965 vin number #4127 is one of very few all-aluminum hand-formed body vehicles (rather than traditional fiberglass) ever built.

An incredible vehicle, and a rare opportunity to acquire one of the real 427 SC "Super-Cobra" cars. Spectacular condition!! Incredible performance…very desirable!! A very special "Blue-Chip" investment Shelby 427 SC Cobra!

Shelby Cobra History

In the early '60's Shelby built the CSX 2000 serial numbered car which was es: his taking an AC Cars chassis with aluminum body and first putting a Ford 260ci which ultimately evolved into the Shelby Cobra 289 cid versions.

With this recipe along came the Shelby Cobra FIA world competition cars CSX2000 series and the famous Shelby Cobra Daytona Coupe version. All maki around the world.

Then in 1965, after all this, ol' Shell decided to stuff a Ford FE engine into a C chassis. It was apparent that a total new design was needed. So, a completely rec purpose built Shelby Cobra 427 chassis, the CSX3000 serial numbered car, coup the famed 427 cid engine (and 428 cid engines) and toploader trans was brough Pure muscle, and the expected giant killer. However, due to some Ferrari skull Shelby's killer 427 Cobra program came to an end in the mid '60's, but the legend on.

In the early '90's Shelby decided to finish out the production run of the She Cobra S/C models that were not completed in the '60's and now offers t "continuation" cars. These are no longer available.

But, here is the rest of the story. Ol' Shell was and is not done with shaping his Shelby, disturbed by the "knock off" Cobra replica cars that can't use his name essentially made up of every "tom, dick and harry parts", at the end of "96 began pr the Shelby Cobra 427 S/C CSX4000 Series component cars. His reasons were ver and to the point. First, with so much activity in the Cobra replica business Shell was time that he return with a detailed and exacting to original spec 427 Cobra tha have his signature, putting back into perspective the way the Shelby Cobra 427 S/ supposed to be built. Second, Shelby just got tired of his original Cobra shape ar details being "prostituted" and blemished by "artistic ease" to the point of non-rec Third, and probably most important, Shelby wanted to offer a second chance to th grew up with the Shelby Cobra, allowing them to have a shot at owning a "real Thus, the Shelby Cobra 427 S/C CSX4000 series.

Today, through specially selected dealers such as Nostalgia Motorcars, Ltd.

SUMMARY:

THIS IS AN AUTHENTIC REPLICA OF A 1965 SHELBY. THE VEHICLE IS BRAND NEW. QUALITY OF WORKMANSHIP AND DETAIL IS OUTSTANDING. COMPLETELY CUSTOM BUILT USING THE BEST OF NEW PARTS AND MATERIAL AVAILABLE. A TRULY SHOW QUALITY VEHICLE. THIS VEHICLE WOULD COST ALMOST DOUBLE THE APPRAISED VALUE TO BUILD.

EVALUATION

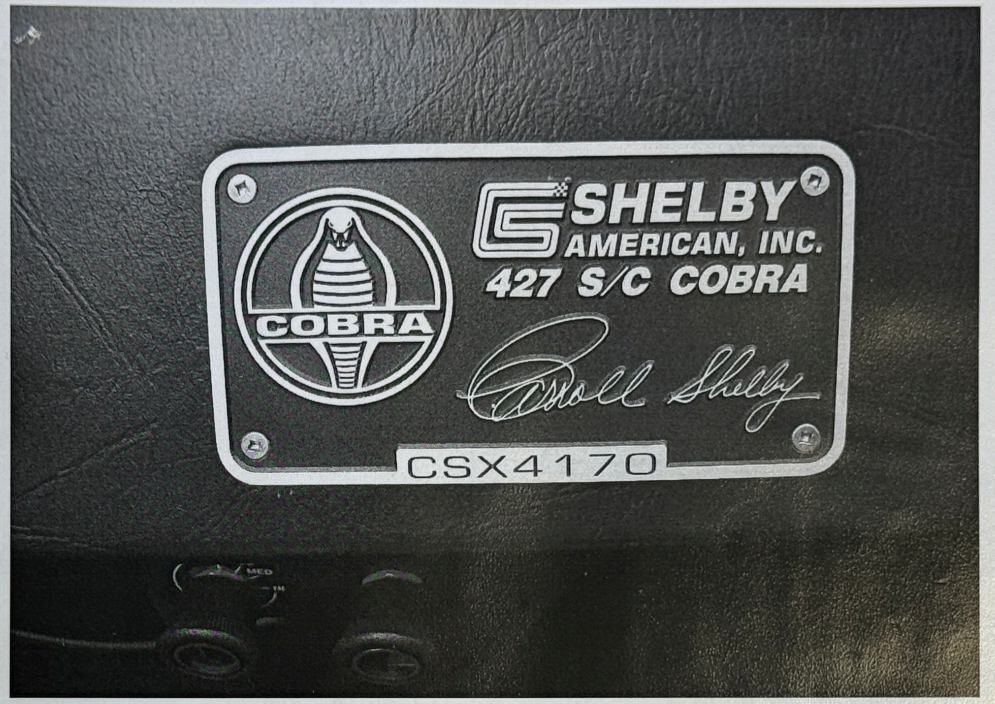

It is my opinion that in today's North American collectable car market a fair replacement value for this vehicle in its present condition would be: [illegible]

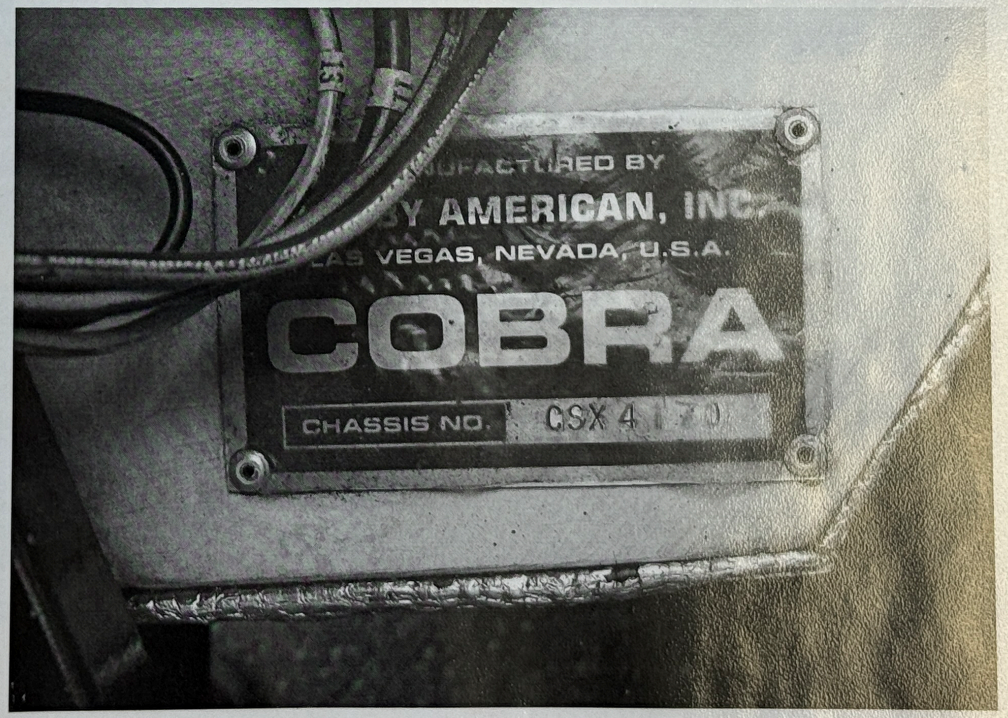

Photographs taken at the time of this inspection are attached to and form part of this evaluation report.

Yours truly,

D. Brown

AC Cobra 427 SC - CSX4000 Aluminium by Shelby

EJ58

Price: 185 000 USD

Year: 1965 **Location:** North America

Mileage: 4 500 mi (7 242 km)

Chassis N.: Upon request

Colour: Black

Interior: Black leather

The Shelby Cobra is probably one of the most iconic sports car of all time. It has been the dream of many enthusiasts through the years, and is still today one of the most desirable cars. Carroll Shelby, the famous Texan race driver and tuner, had found the magic recipe by fitting powerful Ford V8 engine in the small AC roadster. The most extreme version, the 427 will be fitted a monstruous 7 Liters Ford V8 rated at 425 HP. Enough to make the Shelby Cobra 427 one of the fastest car on Earth, even today.

As an icon, the Shelby Cobra has been one the most copied car in the world. Everything has been seen on this special market, the best replicas and more often the worst cars have been built by many small firms all over the world. In the late 90's, Shelby, the creator of the legendary Cobra, decided to produce a series of CSX4000 continuation Cobra, with VIN following the one's of the last genuine cobras made in the sixties which were carrying CSX3000 VIN.
These CSX4000 Cobra are of course everything the 65 models were and even more. They are built on a 65 like chassis but much stronger. Other enhancements have been made, like a better cooling system, a modern gearbox, enhanced suspensions (built like the original ones), and a better steering.

The car we are proud to offer is a Cobra 427 S/C built by Shelby. It is a very special car as it was the very first continuation car built in aluminium. It is also one of the only 12 cars that have an hand formed aluminium body. Everything has been built by the Shelby factory, including the engine that was a NOS original 427 side oiler from the Shelby stock. It has been built as a very streetable engine with tons of torque and dynoed at 460 HP. The gearbox is the 4 speed Toploader. This car could not be closer to an original one. It is one of the best continuation cars ever built. It is currently in perfect condition.

As a Shelby, the car is registered as a 1965 with an original VIN, and is delivered with an extensive file provided by Shelby, including a manufacturer's statement of origin, certifying the car is 1965. This is trully unique in the Cobra world, as only the CSX4000 are delivered with a COC, a VIN compliant with the original ones, and can thus be registered in Europe (including France) as 1965 Shelby Cobra.

If there were only one Cobra to buy today, except the original ones whose prices are far below 500.000 EUR, it would be the CSX4000 continuation. This is the only one to be fully compliant with the original one, with original registration and VIN, and for a competitive price compared to replicas. With the aluminium body it is the closest thing to the original Cobra. And as a Shelby built cobra, the car is listed in the Shelby registry.

This stunning cobra is now available in the US. The price includes shipping and all european taxes. It will be delivered with a French (or european) road registration (registered as a 1965 427 Shelby Cobra).

This vehicle is available immediately. The price includes all European Union taxes and commissions.

CARPROOF

Report Findings in Chronological Order

CARPROOF

Below are all records for the vehicle, listed in the order that they occurred.

Date	Location	Data Source	Type of Record	Detail	Odometer

Accident, Collision and Damage Detail

CARPROOF

If the vehicle has had any history of accidents, collisions or damage in either Canada or the U.S., the records are outlined in this section.

VIN: CSX4170

Police Reported Accidents

Incident Date	Location	Detail
No police reported accidents found		

Accident/Damage Estimates

Accident estimate records are generated by collision estimating facilities from the process of estimating the amount and extent of damage to a vehicl
Estimates in some cases have associated insurance claims.

Incident Date	Location	Estimate Date	Type of Record	Detail	Amount	Odometer
No estimates found						

Insurance Claims

The insurance claims identified in this report do not include any medical pay-outs, damage to other vehicles, damage to property, towing, rental cars or any other incidental damages.

Incident Date	Location	Type of Claim	Detail	Amount	Odometer
No claims found					

Other Damage Records

Incident Date	Location	Type of Record	Detail	Odometer
No other damage records found				

Lien Status

CARPR

This section lists the provinces and territories where we searched for or found a security interest registered against the vehicle (lien). If a lien is foun
further details will appear at the end of the report.

Province	Lien
Ontario	No lien found
Quebec	No lien found

CARPROOF Canadian Lien Guarantee

Our search results accurately reflect the government records of each personal property and security registry in Canada that is searched at the time the search request is made. If for some reason our search report fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARPROOF will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian ($5,000.00), whichever is lower.

Canadian Registration

CARPR

This section details where in Canada the vehicle is now or has ever been registered, as well as the status (Inspection Required, Normal, Non-repairable, Rebuilt, Salvage, Stolen) of the vehicle in those jurisdictions.

Jurisdiction	Branding	Detail
Alberta	Not found	
British Columbia	Not found	
Manitoba	Not found	
New Brunswick	Not found	
Newfoundland	Not found	
Nova Scotia	Not found	
Northwest Territories	Not found	
Nunavut	Not found	
Ontario	**MOVED**	**Vehicle registered by or exported to another jurisdiction.**
Prince Edward Island	Not found	
Quebec	**INSPECTION REQUIRED**	**Vehicle must be certified or pass inspection (usually mechanical). Vehicle may h not been roadworthy or jurisdiction may be routinely ensuring that an inspection done prior to next registration.**
Saskatchewan	Not found

The Consumer Protection Act, 2002 provides you with rights in relation to having a motor vehicle repaired. Among other things, you have a right to a written estimate. A repairer may not charge an amount that is more than ten (10) per cent above that estimate. If you waived your right to an estimate, the repairer must have your authorization of the maximum amount that you will pay for the repairs. The repairer may not charge more than the maximum amount you authorized. In either case, the repairer may not charge for any work you did not authorize.

If you have concerns about the work or repairs performed by the repairer or about rights or duties under the Consumer Protection Act, 2002, you should contact the Ministry of Government Services (formerly the Ministry of Consumer and Business Services).

Date: Oct 19th/00

Dear Client:

Thank you for choosing my service to appraise the value of your automobile.

For your information I submit the following credentials with reference to my experience in the automotive industry.

I currently operate the above named business in which I build and repair specialty vehicles. The functions I perform include, chassis fabrication, body repair or alteration and painting, plus work closely with other trades that are not my specialty. I have been appraising the value of vehicles since 1965.

I am a judging supervisor for the International Car Show Association and have been since 1965. My duties when called upon include classifying and judging all types of vehicles from antique to modified, also motorcycles and occasionally boats. I am also the local representative for the National Street Rod Association, a North American organization that boasts some 55,000 members.

In closing I suggest that most insurance companies request appraisal updates after 2 years. I would be happy to help you at that time should you require my service.

Please do not hesitate to contact me should I be required for any further information.

Yours truly,

D. Brown
