INDEX	
Page	Description
1	Non-Key Tilt Steering Column Installation
2	Key Tilt Steering Column Installation
3	Key Tilt Steering Column Ignition Wiring
4	Neutral Safety Switch (Column Shift Only)
5	FR20300 Stramp Clamp Installation
6	Gear Shift Arm Installation (Column Shift Only)
7	Turn Signal Wiring

STEERING COLUMN INSTALLATION TIPS

- Be sure the column you have selected is the proper length before you begin installation.
- DO NOT activate the column "tilt" mechanism before installation. This can cause injury or damage to the column.
- You must install a neutral safety switch on all automatic transmissions. Your vehicle will start in any gear without it.
- The end of the Flaming River column is a 1"OD hollow shaft and Flaming River has a complete line of universal joints and shafts available to complete your steering installation after the column is installed in your vehicle.
