18" Chrome (Front)

# | SUSPENSION

As the first company to employ independent rear suspension on trike conversions, Roadsmith continues to lead the way in design and innovation within the trike industry. A key feature of the trailing arm independent suspension is the absence of unnecessary moving parts, virtually eliminating any adjustments or maintenance. Roadsmith trikes are built with a single purpose in mind... "Touring in comfort".

## Sway Bar

- Flexible link between trailing arms
- Uses torsion spring principle to reduce body roll

## Built-In Trailer Hitch

## Belt Driven Differential

- Standard spider gears in an open differential
- Permanently lubed for no maintenance
- Longer, stronger Gates carbon fiber belt

## Automotive CV Joints

- Standard automotive application
- Commercially available
- Lasts the life of the trike.

## Heavy-Duty Automotive Components

- Large 11" rotors and 2-piston calipers
- Standard automotive application
- Commercially available

## High Performance EBC Brake Pads

## Automotive Disc Brakes

## Adjustable Coil Over Shocks

## Electric Reverse (optional)

- Utilizes high-torque 12 volt motor with gear reduction
- Produces large amounts of torque
- Very quiet
- No transmission modification

## Maintenance Free Urethane Bushing

## Longer Wheelbase

- Overall smoother ride
- Similar to longer wheelbase car
- Moves suspension behind passenger

## Integrated Kit Mounting

- Multi-point mounting system
- Fully integrates trike chassis with motorcycle frame
- Actually strengthens bike frame

## Virtually Maintenance Free

- Easiest trike conversion to own
- No grease fittings
- Just ride and enjoy!

# RIDE WITH THE EXPERT
