Signature: 

Ratings – 5=Excellent, 4=Very Good, 3=Good, 2=Average/Fair, 1=Poor, O = Original, P = Power

Exterior Paint Finish: (3+/4) Body Panels: (4) Glass: (3+) Bumpers: (Painted)
Chrome/Trim: (3) Top: (Painted) Wheels: (4) Tires: (4)
Lights and Lenses: (4) Undercarriage: (3+ Minor Surface Rust)

Comments: Stock in appearance, factory panel fit, newer base coat, clear coat paint.

Mechanical Engine: (3) Engine Compartment: (3+) Power Steering, Power Disk Brakes

Comments: Per Owner all original mechanicals have been professionally serviced.

Interior Dash Pad: (4) Door Panels: (4) Head Liner/Visors: (4) Carpeting: (4)
Seat Upholstery: (4+) Trunk: (Painted with Factory Style Carpeting)

Comments: Original interior components refurbished with high quality vinyl materials.

Overall Rating: (3+/4) **Comments:** Highly detailed, good quality professional restoration has been completed on the original interior and rust-free exterior body with low mileage mechanicals well maintained by a professional service. Per Owner the current odometer reading is believed to be the original mileage. (No Verification). The vehicle information VIN tag matches correctly for the model year and body style and engine type. Correct Yellow Cab paint match exterior color in newer base coat clear coat paint. The original four bench seat interior has been reupholstered with better than factory vinyl materials. Value guide books do not address these Checker Aerobus 12 passenger vehicles. The Appraiser did rely on most recent available data for 1960's and 1970's Checker Aerobus sales along with current listings of Checker Aerobus airport limonene's in the market place for sale or that have recently sold through auctions. The 1960's and 1970's Checker Aerobus's in need of restoration are listing and selling in the \$3,000 to \$7,000 range with restored Checker Aerobus's listing in the \$24,000 to \$30,000 minus a 10% to 20% list to sale price deduction or auction fee. Due to quality of the interior/exterior restoration work with original mechanicals this 74 Checker Aerobus is viewed to be in the middle of the adjusted market values.
