A revolution in last mile delivery

We're breaking free from traditional deliveries with our innovative "PODs" (refrigerated Points of Distribution):

- Consolidating last mile deliveries direct to your kitchen with 98% success rate.
- Reducing emissions in our city air by up to 70%.
- Giving you fresher food, cost-savings and more flexible delivery options.

"One benefit of having a POD close by is that we get our deliveries really early... this shortens that time from farm to table and allows us to serve up more fresh products"

Steve, Head Chef

Award-winning customer service

Our service is bespoke to you. Save time, labour and costs with a dedicated account manager just a call, whatsapp or email away.

- 1:1 Account Manager and customer support (Mon–Sat)
- Support on menu development and sustainability goals
- Winners of “Supplier Excellence” at the Foodservice Cateys 2022

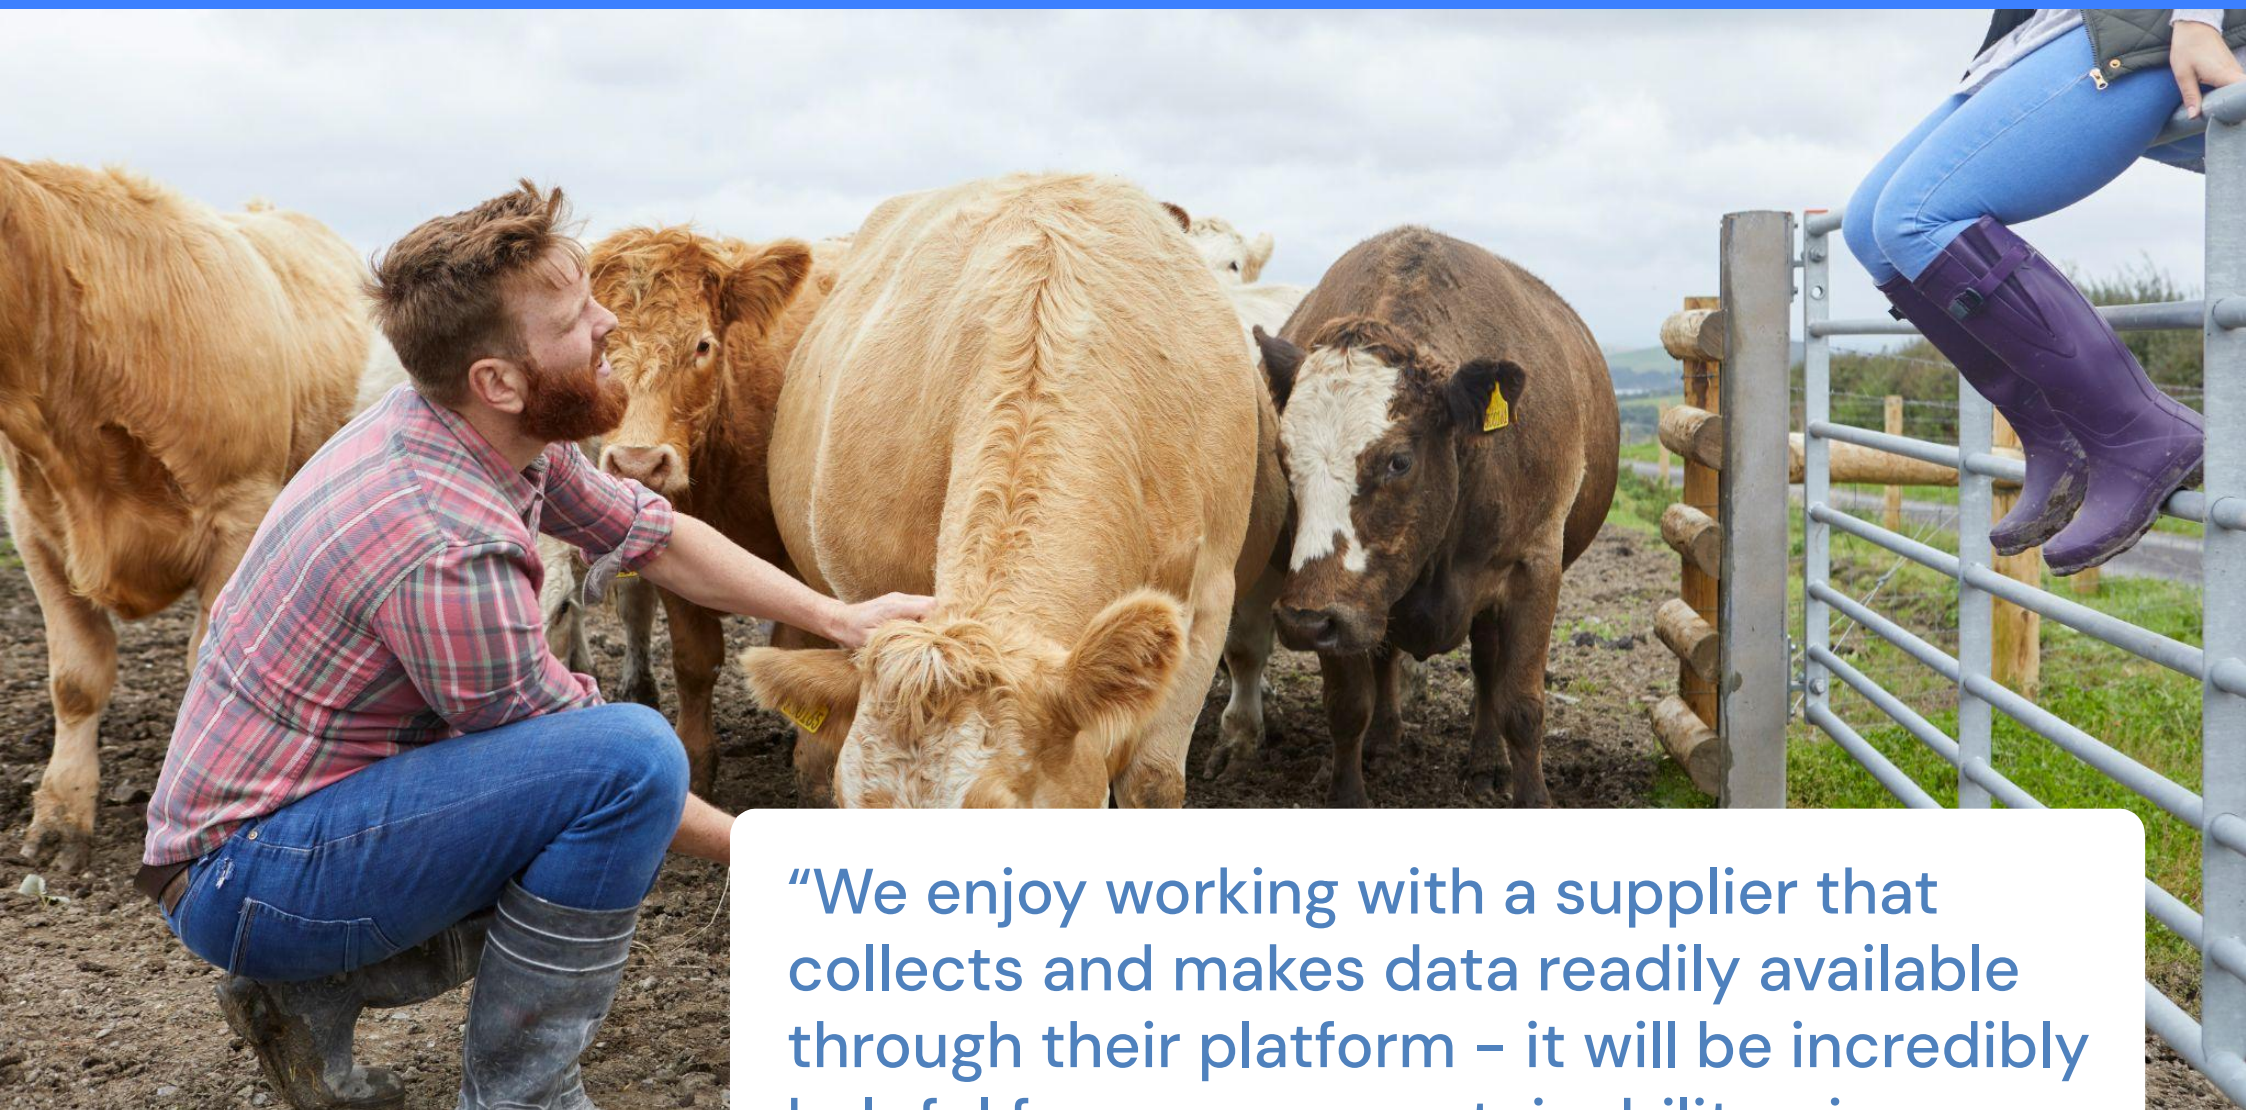

“With Collectiv, we’ve streamlined our supply chain, reducing food costs and staff admin time – we can safely say there’s no better partner to have done this with”

Clem, Director of Food
The Salad Project

Fair, sustainable, transparent

We source quality products direct from our network of vetted producers – harnessing the Collectiv buying power of hundreds of kitchens and delivering direct to you.

- Traceable ingredients, consistent quality
- Access to wholesale prices that enable you to scale up
- Free sustainability insights and **Producers Stories** to share with customers and stakeholders

“We enjoy working with a supplier that collects and makes data readily available through their platform – it will be incredibly helpful for our own sustainability pieces.”

Anouk, Sustainability Manager

Fooditude

How it works

POD Model

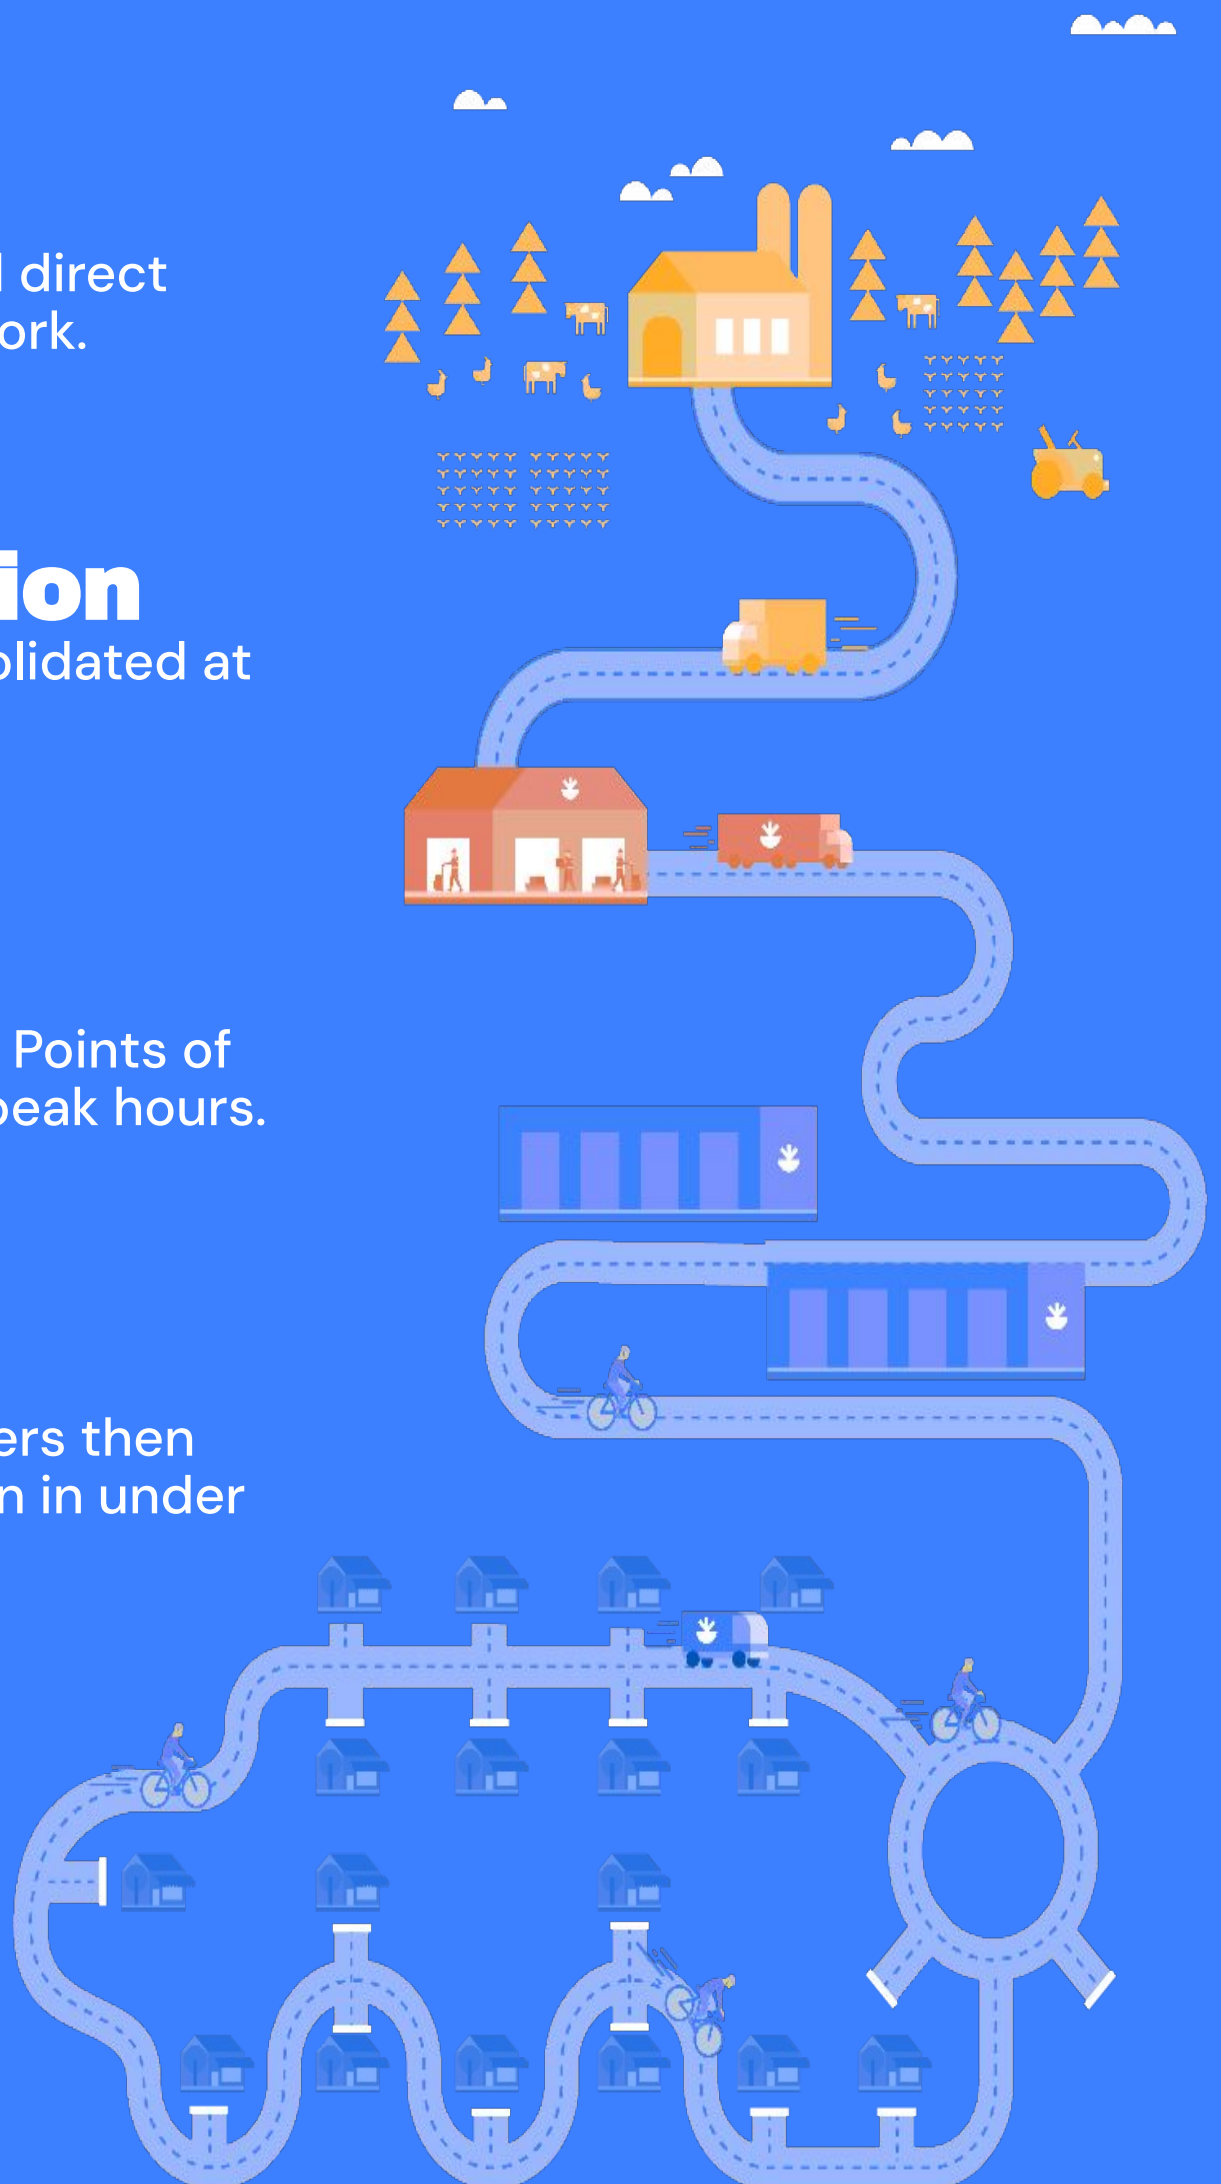

Radically transforming how food is accessed and distributed within cities.

1. Producers
Products are sourced direct from our vetted network.

2. Consolidation
Your orders are consolidated at our central hub.

3. PODs
Then delivered to our Points of Distribution outside peak hours.

4. Last Mile
Green logistics partners then deliver to your kitchen in under 30 mins.

How it works

Powered by data

At Collectiv Food, we champion your right to know the origins and practices behind your food. That’s why, we provide verified data on your suppliers and emissions, giving you the knowledge to understand, control, and share your food and drink's impact – no hidden costs, just straightforward transparency.

Good for business, better for our planet

Better choices

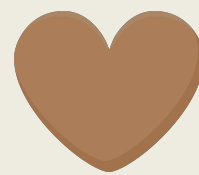

Your choices make a difference. Discover our Better Choices, highlighting products which represent easily accessible, responsible choices. Expect more Better Choices as we continue to work with new product ranges and suppliers.

Check out our [Resources page](#) for more on how we measure supplier emissions and sustainability efforts.

Lower carbon

Products with a lower carbon footprint in their category. Based on their carbon intensity as measured by our partner, My Emissions. Emissions considered cover farming, processing, packaging, and transport. Choose for a more responsible choice, taking you one step closer to Net Zero.

Standout supplier

Products accessible from suppliers with exceptional sustainability scores, rated at least 3 out of 5 by our audit partner, Responsibly. Choose these products for Producer Stories worth shouting about, while supporting producers making good progress in their sustainability journeys.

Make a difference, one Better Choice at a time.

Why sustainability matters.

Adopting sustainable practices isn't just a responsible choice, it's a strategic move that can benefit your kitchen's bottom line and set you apart in a competitive market.
