VISITOR GUIDE

WELCOME

Hauser & Wirth Menorca is an art centre combining art, education and conservation in the natural setting of Illa del Rei. The art centre presents an ambitious exhibition programme accompanied by a dedicated public programme with learning and conservation at its core. Outdoor sculptures are found amid the natural landscape and the garden designed by Piet Oudolf.

Discover the exhibitions ‘Mika Rottenberg. Vibrant Matter’, ‘Cindy Sherman. The Women’, the Education Lab and a presentation by Eduardo Chillida.

23 JUNE – 6 SEPTEMBER

Monday to Sunday from 11 am to 10 pm

7 SEPTEMBER – 26 OCTOBER

EXHIBITION PROGRAM

MIKA ROTTENBERG

VIBRANT MATTER

10 MAY – 26 OCTOBER

For decades Mika Rottenberg has addressed our relationship with capitalist systems of production and labor, realising a labyrinth of disparate worlds through seductive multidimensional works. She draws attention to the absurdity of our global situation; harnessing imagery that's simultaneously pleasurable and troubling, blurring facts with fiction, the natural from the artificial.

Rottenberg's first solo exhibition in Spain features celebrated video installations, 'Cosmic Generator' (2017) and 'Spaghetti Blockchain' (2019), alongside her latest 'Lampshares' (2024 – 2025) carved from bittersweet vines and reclaimed plastic.

EXHIBITION PROGRAM

CINDY SHERMAN

THE WOMEN

23 JUNE – 26 OCTOBER

Cindy Sherman is globally renowned for her exploration of identity and gender through the performance of meticulously observed personas for the camera. For her first solo exhibition in Spain in over two decades, ‘Cindy Sherman. The Women’ will feature a selection of the artist’s most iconic bodies of work, dating from the 1970s to 2010s, and emphasising how Sherman revolutionized the role of the camera in artistic practice.

EDUCATION LAB

The Education Lab is a space for experimentation and imagination, created in response to the exhibitions, exploring the shared idea that identity is not static but evolves over time. This year, the Education Lab is a partnership between Hauser & Wirth and Irene Pascual, professor at the Higher School of Dramatic Art of the Balearic Islands (ESADIB).

Inspired by Mika Rottenberg and Cindy Sherman's practice, the creative space invites visitors to take part in a self-directed performance.

EDUARDO CHILLIDA

Following the 2024 solo exhibition ‘Chillida in Menorca,’ this presentation showcases the work of Eduardo Chillida, one of the preeminent Spanish sculptors of the 20th Century. Highlighting the artist’s profound connection with Menorca, its natural environment and the local materials, the presentation features early works on paper from the 1970s, Chamotte clay sculptures made during the 1980s, later pieces in Corten steel, and the outdoor work ‘Saludo a los Pájaros II (Salute to the Birds II)’ (2000).

CANTINA

Cantina is a convivial restaurant and bar with a focus on sharing, local produce and Menorca's rich gastronomic traditions. Operated by Artfarm, Iwan and Manuela Wirth's independent hospitality company, Cantina serves seasonal vegetables and sharing plates of fish, rice dishes and grilled meats. While the kitchen is located in the historical building that once housed the hospital's cooking area, the restaurant and bar are outdoors. Tables are found amid an olive grove with views of the harbour and surrounding nature.

SHOP

Sharing a restored sandstone building with Cantina, the gallery shop offers a selection of books and gifts inspired by our current exhibitions, Hauser & Wirth artist collaborations, crafts by local makers and products relating to Menorca.

GARDEN BY PIET OUDOLF

A garden designed by Piet Oudolf runs alongside the gallery buildings incorporating native perennials and planting suited to the climate. A matrix of graceful low growing grasses leads to various types of bright shrubs in a sustainable garden that enhances the ever-changing experience of the Mediterranean landscape.

SUSTAINABILITY

In line with the Paris Climate Agreement of the United Nations, we are committed to reducing our carbon emissions by at least 50% by 2030.

We have already implemented several sustainability initiatives on site, which include:

- Using 100% renewable energy
- Joining the Plastic Free Commitment to become a Plastic Free Island
- Collecting rainwater for use in our gardens
- Installing a free public fountain
- Using low energy LED lights in our galleries and offices
- Using outdoor lights controlled by motion and daylight sensors
- We're a member of 0 Plastic Experiences—a local initiative working to reduce single-use plastic across the island. Discover other companies that help make Menorca a more sustainable destination.

BIODIVERSITY

Illa del Rei is a protected natural environment with unique biodiversity, including the native species of lizard ‘Podarcis lilfordi

balearica’. They find shelter in newly created grooves across the building and Piet Oudolf’s sustainable garden.

VISITOR GUIDELINES

Please do not touch any artwork.

Children under 12 must be accompanied by an adult at all times inside the galleries.

A unique species of lizard lives on this island. Please respect them, do not feed them or try to capture them.

If you wish to vape or smoke, please go to the indicated area by Cantina.

Except for guide dogs, animals are not allowed.

For your safety, swimming from the island is not permitted.

Please refrain from wearing only swimwear.
