PTE Academic Offline Practice Test Part 1: Speaking

PTE Academic Offline Practice Test Part 1: Writing

PTE Academic Offline Practice Test Part 2: Reading

PTE Academic Offline Practice Test Part 3: Listening

Each item is presented as it appears on screen online, but as this is an offline test, it does not have the same functionality as the actual online test. This test will need to be printed, answers written and spoken responses recorded on mobile phones. Audio countdowns are not included for listening items and there is no recording status countdown for spoken responses. If doing this test under timed considerations, only approximations can be applied.

Each of the four documents includes an Answer Key and Transcripts of the recordings for the speaking and listening sections. The Answer Key provides the correct answers and/or sample responses to the practice items. These sample responses are authentic responses given by test takers who took PTE Academic, and illustrate the CEF levels of competence B1, B2 and C1.

Answers can be checked against the Answer Key and recorded spoken responses compared with the sample responses.

The audio prompt files required for some listening and speaking items are provided within the folder **Prompts** and the sample responses for speaking in the folder **Sample responses**. The files are labelled by item type, e.g., **Describe image** and by item number **Describe image_Item 1** for you to easily find.

The offline test can be used for item practice, whole test practice or the items used as sources for development of additional preparation material.
